

SOS Tech Group
2850 Quarry Lake Dr. Suite 101
Baltimore, MD 21209

To whom it may concern:

SOS Technology is a 13yr old IT and Surveillance Systems integrator. We have operations in 22 states across the US and have aligned ourselves with industry leading vendors for cutting edge hardware and software which we deliver to our customers.

Recently SOS has entered into a “select” integrator relationship with Jedvice LLC for their JedEye™ Security product. This comprehensive and robust security awareness software is going to revolutionize the market and SOS is proposing this solution for current customers ranging from schools, places of worship and hospitals.

We are very excited to add this solution to our portfolio of services and expect the JedEye™ system and development team to deliver exciting enhancements to traditional surveillance systems.

Sincerely,
