Baltimore, MD 21209

בס"ד

Yorucha has opened up the breadth and depth of Hilchos Mamonus and made it accessible to ehrliche businessmen like never before. Tracing Halachic issues with very practical contemporary applications to their classic sources, delving into the critical factors that the Halachos hinge upon, and presenting the opinions and views of the major Poskim, brings these Halachos to life, making them relevant in countless situations that arise in real life on a regular basis.

In its first two years, Yorucha has spread across the States and beyond, establishing over 70 weekly chaburos in dozens of cities. The participants become acquainted with a full array of Halachic topics, including employment and damages, ribbis and kinyanim, brokerage and geneivas daas, malpractice and competition, on both in-depth and practical levels.

The wide ranging curriculum together with the handy and well researched source booklets with both Hebrew and English notes highlighting important points, make these otherwise somewhat intimidating topics relatively easy to understand as well as to apply in many varied work situations.

We live in a generation in which there is B"H an almost unprecedented quest for knowledge of Dinei Mamanus. People today are asking shailos regarding business situations just as they've long been asking regarding Shabbos and kashrus. It's a new awakening, and Yorucha is rising to the occasion, providing a practical program to address the need of the times in this vital area.

It's a great zechus to be part of this program, whether as a participant or as a supporter, to help it expand and promote ever more ehrlichkeit with knowledge, understanding and adherence to Halacha.
